

To whom this concerns,
I have been an XM subscriber for the past year and DO NOT listen to local broadcasting. The area that I live in does not provide the news, weather, or information that I need on a dailey basis. This petition NEEDS to be rejected on behalf of other listeners that are in my similiar situation. I live in a rural area and because of funding or lack of interests there are very few media groups that cover my area and my needs.

Thank you,

Riche Varner
